CENTRAL QUEENSLAND
UNIVERSITY – BRISBANE,
AUSTRALIA
(TOP 3, GPA 6.75/7.0)

2009 - 2013
BACHELOR OF SCIENCE
IN IT – UNIVERSITY OF
NATURAL SCIENCES – HO
CHI MINH CITY, VIETNAM
(TOP 5, GPA 8.7/10)

WORK EXPERIENCE

June 2021 - June 2025

COMMERCE VISION PTY - Senior Software Engineer (Brisbane)

- Designed, developed, and maintained B2B and B2C eCommerce platforms using **C#, .NET Framework, Microsoft SQL Server,** and frontend technologies including **HTML, CSS, JavaScript/TypeScript, jQuery**, integrating with both **RESTful APIs** and **SOAP services**.

- Enhanced customer self-service portals using **C# .NET Core**, **Kendo UI**, focusing on delivering scalable, high-performance UI/UX to streamline workflows and reduce support overhead.

- Apply modern engineering practices including **CI/CD pipelines (Azure DevOps, GitHub)**, and **Clean Architecture principles** to ensure maintainable, testable, and scalable solutions using **ASP.NET MVC** and modular design patterns.

- Notable clients: JB Hi-Fi, Office Choice, and others across retail, healthcare, hospitality, and electronics sectors across Australia. Combined transactions: **$2B**.

Aug. 2015 - June 2021

GLOBAL HEALTH LTD – Software Engineer (Melbourne)

- Built a **C#, .NET Web API, MSSQL, React**-based license control system, replacing a legacy solution and streamlining billing and license management through integrations with **Xero**, **Zendesk**, and **Power BI**.

- Developed an online patient portal for clinics and hospitals using **C#, jQuery** and **multi-factor authentication (MFA)**, significantly reducing manual data entry, paperwork, and check-in time by up to **70%**.

- Participated in the development of a Medicare online-claiming system utilising **C#, WinForms, MSSQL**, and **Windows Services**.

2013 – 2015

ABAKI PTY LTD – Software Engineer (Melbourne)

- Maintained a Windows application to support healthcare professionals in managing clinical and practice operations (**C#, MSSQL, Winforms, HL7**).

- **Conducted online & on-site training** on the Medicare online claiming system for new team members and new clients.

2012 – 2013

HARVEY NASH VietNam – Associated Software Engineer (VietNam)
- Maintained program code in **C# .Net** and implemented new requirements for an Enterprise resource planning (ERP) system.
- Designed complicated reports using **Crystal Report and SQL**, diagnosed problems and maintained client database.

FREELANCE PROJECT – Mathew's Liquors (Melbourne)
- Developed a **.NET Windows service, MSSQL** integrated with **REST APIs** and **Power BI** to automate data collection and drive stock and sales decision-making.
